Ahmedabad

CERTIFICATE

This is to certify that

- 1) Anuj Soni
- 2) Jay Pansuriya
- 3) Harsh Nasit

Student/s of Semester- V BCA (TYBCA), FCAIT, GLS University
has/have successfully completed the System Development Project
Part-1, System Analysis work on

“ Vehicle Service Management System ”

as a partial fulfillment of the study of Third year Semester-V,
Bachelor of Computer Applications(BCA).

Date of Submission:07/10/24

Prof.(GarimaMishra)

Prof.(Dr.) Tripti Dodiya
Dean, FCAIT-UG

Certificate

This to certify that Mr.Anuj Soni, Mr.Jay Pansuriya and Mr.Harsh Nasit students of FCAIT(BCA PROGRAMME), GLS University, Ahmedabad have been successfully mentored by us during their Software Development Project titled "VehicleServiceMangementSystem".

In the first phase of project, they have successfully completed the following tasks under our guidance:

- System Analysis
- Uml Diagrams
- Data Dictionary
- Initial Screen Layouts

Throughout this phase, we found them to be diligent, hardworking and committed to achieving their project milestones with sincerity and dedication. Their performance and professionalism have been commendable.

Yours Sincerely,

Nirav Patel
Managing Director
Bsp Technology

ACKNOWLEDGEMENT

We are thankful to all those person who have directly or in directly contribute to create this project & helped us a lot to make it a great success.

We grab this opportunity to introduce the project of **Vehicle Service Management System** as a part of 5th Semester BCA.

First of all we would like to express our sincere gratitude to **Prof. Garima Mishra** for giving us opportunity of System Development Project. We also like to thank her for giving guidance & constant inspiration with the valuable suggestion during our project work.

We are extremely thankful to each and every faculty member of GLS FCAIT as they share their valuable time with us for our project and solve our problem.

We are grateful to all the member of **Vehicle Service Management System** for their kind support and suggestion during all the Analysis Stage.

Company Profile

Bsp Technology based in Ahmedabad, is a leading solutions provider dedicated to delivering innovative and cost-efficient technology solutions tailored to the unique needs of businesses worldwide. With a strong global presence across India, Canada, the USA, the UAE, Australia, and beyond, we specialize in empowering organizations through cutting-edge technology that enhances efficiency and drives growth.

Our comprehensive range of services includes custom software development, web portal design, e-commerce solutions, mobile app development, UI/UX design and data management with cloud hosting. We excel at transforming complex IT challenges into seamless, user-friendly solutions that align perfectly with our clients' business goals.

At Bsp Technology, our vision is to become a premier global IT partner, offering scalable and reliable solutions that enable businesses and educational institutions to thrive in an ever-evolving digital landscape. With a strong client-centric approach, we value fresh ideas and are committed to providing 24/7 support to ensure the success of our clients.

Our mission is to deliver robust, cost-effective technology solutions that strengthen digital infrastructure and provide exceptional customer service, helping businesses achieve sustainable growth.

Yours Sincerely,

Nirav Patel

PROJECT PROFILE

Title- Vehicle Service Management System

Front End : React JS

Back End : PHP & Mysql

The main purpose of a **Vehicle Service Management System** website is to streamline and automate the process of managing vehicle maintenance, repairs, and service operations.

- Allows customers to book service appointments online.
- Enables tracking of ongoing and past vehicle repairs.
- Generates invoices and manages payments for services rendered.
- Stores customer details, service history, and notifications.
- Assigns mechanics or technicians to specific service tasks.
- Provides insights into service performance, revenue, and expenses.

Admin :

- Admin can able to logged into system using email and password.
- Admin can manage the various category of the vehicles
- Admin can manage mechanics and service requests.
- Admin can view the registered users and their details.
- Admin can manage their profile and other details.
- Admin can manage customer inquiries and respond to it.

User :

- User can create a free account using mobile number or email and Password.
- User can book the appointment on their scheduled online.
- User can check their profile and manage their profile.
- User can also view their service request status and details.
- User can fill the details of their vehicle and select date and time for their vehicle service.
- User can also delete their service request.
- User can submit their inquiries which includes service request, complaint and general inquiry.
- User can check their inquiry status and admin response.
- User can also check enquiry history with their time and date.

SYSTEM REQUIREMENT

Hardware Configuration:-

Client Side :

RAM	512 MB
Hard Disk	10 GB
Processor	1.0 GHz

Server Side :

RAM	1GB
Hard Disk	20 GB
Processor	2.0 GHz

Software Configuration:-

Client Side :

Web Browser	Google chrome or any compatible browser
Operating System	Windows or any equivalent OS

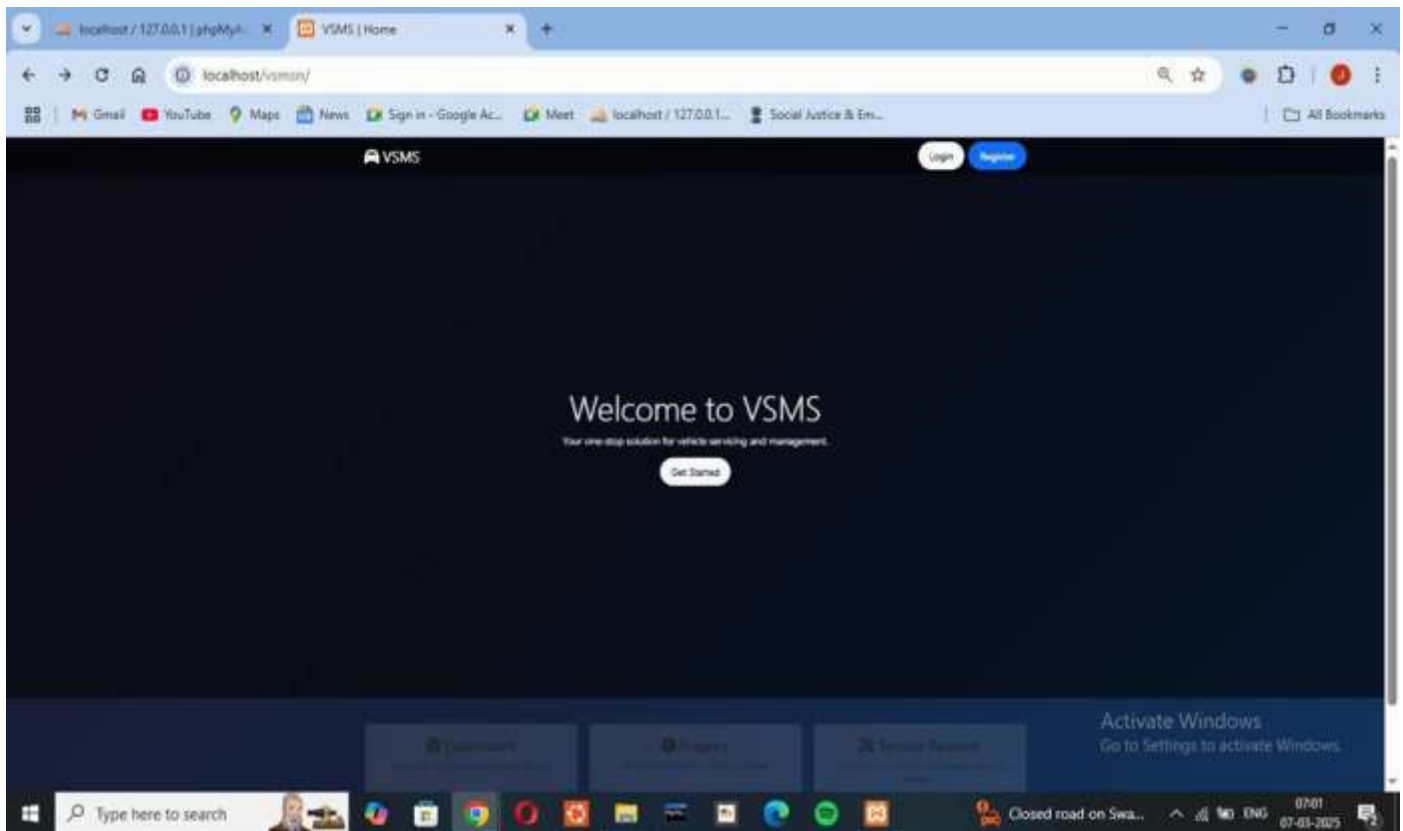

Server Side :

Web Server	APACHE
Server side Language	PHP5.6 or above version
Database Server	MySQL
Web Browser	Google Chrome or any compatible browser
Operating System	Windows or any equivalent OS

PROPOSED SYSTEM

- The **Proposed Vehicle Service Management System** is a web-based platform designed to automate vehicle servicing and repairs.
- It allows **customers** to book appointments, track service progress, and make payments.
- **Service center admins** can manage appointments, assign technicians, and track inventory.
- **Technicians** can view assigned tasks and update service statuses.
- The system includes **billing, invoicing, and reporting** features to improve efficiency and customer experience.
- **Automated notifications** keep customers informed about service updates and reminders.
- The system helps in **business growth** by providing data-driven insights and performance analytics.

HOME PAGE

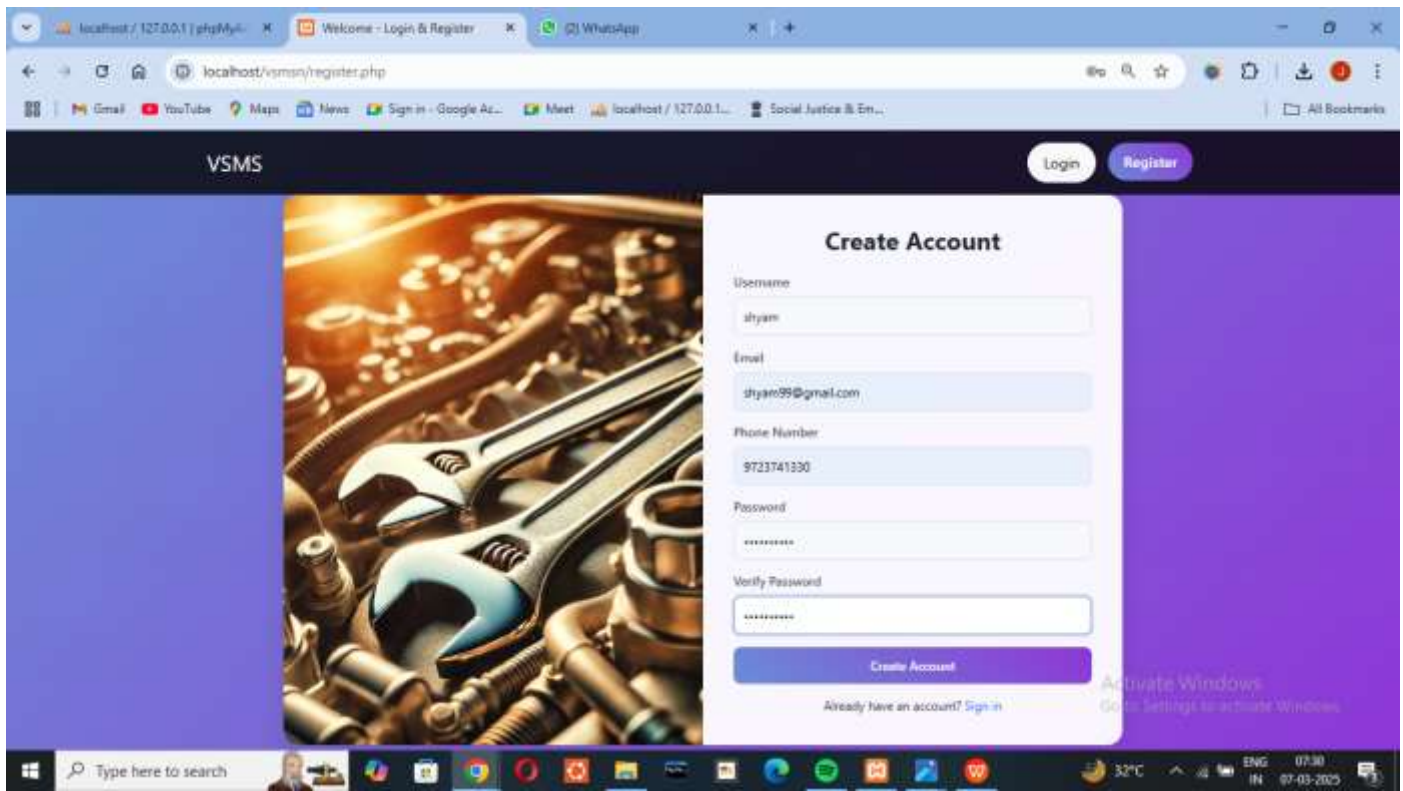

Design the basic homepage UI for Vehicle Service Management System, featuring a dark-themed layout with a navigation bar, a welcoming message, and a call-to-action button for user engagement.

When you click the “Get Started” button, it will open the registration page.

USER PANEL SCREENSHOTS

Registration Page

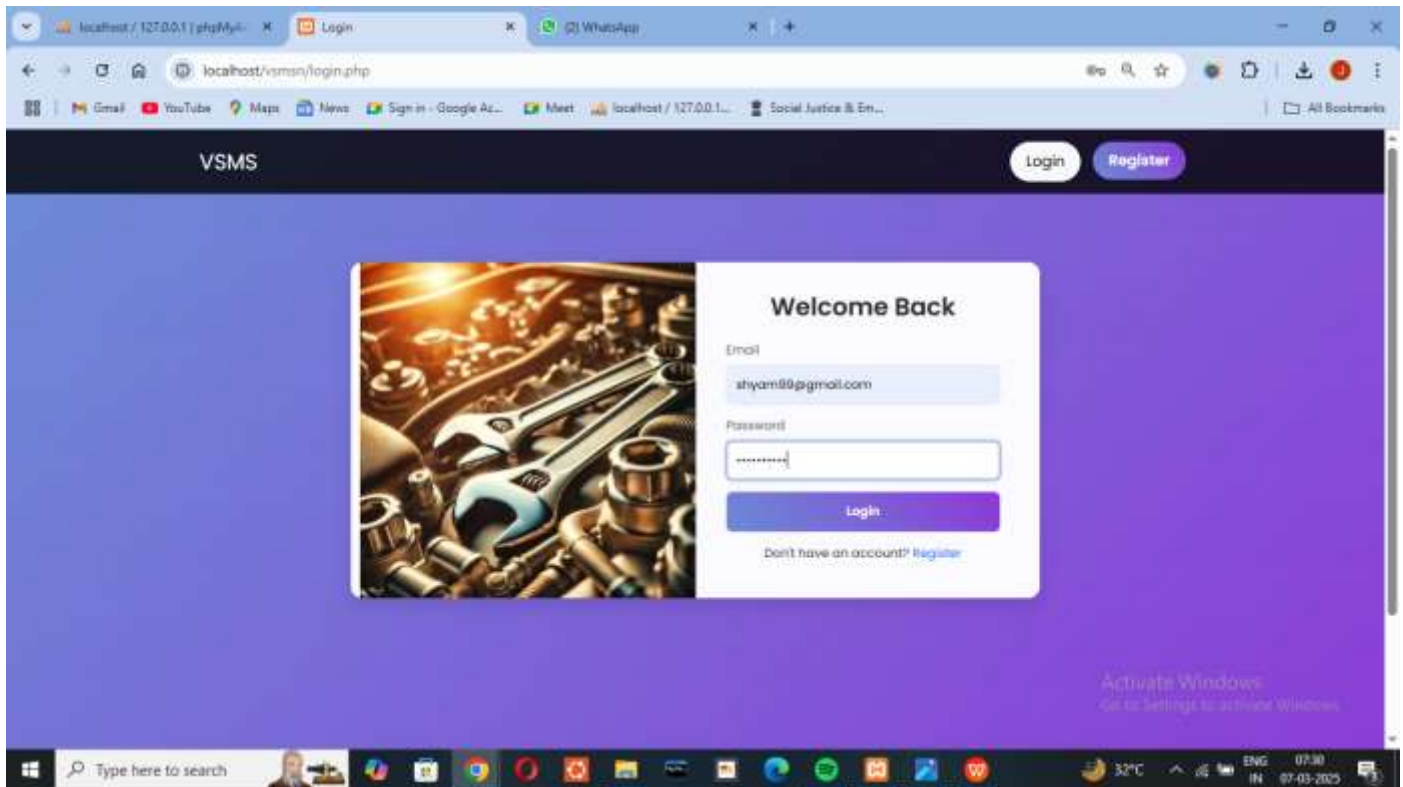

A screenshot of a web browser displaying the registration page for a system called VSMS. The browser's address bar shows the URL 'localhost/vsms/register.php'. The page has a dark blue header with the 'VSMS' logo on the left and 'Login' and 'Register' buttons on the right. The main content area features a large image of a car engine on the left and a white 'Create Account' form on the right. The form includes input fields for Username (filled with 'shyam'), Email (filled with 'shyam99@gmail.com'), Phone Number (filled with '9723741330'), Password (masked with dots), and Verify Password (masked with dots). A blue 'Create Account' button is at the bottom of the form, with a link 'Already have an account? Sign in' below it. The Windows taskbar is visible at the bottom of the screen.

This is a **user registration page** for the “Vehicle Service Management System” web application. The page allows new users to create an account by entering the following details:

- Username
- Email Address
- Phone Number
- Password
- Verify Password

The registration form has a "**Register**" button for submitting the details. Below the button, there is a prompt for existing users with a "[**Login here**](#)" link, directing them to the login page.

Login Page

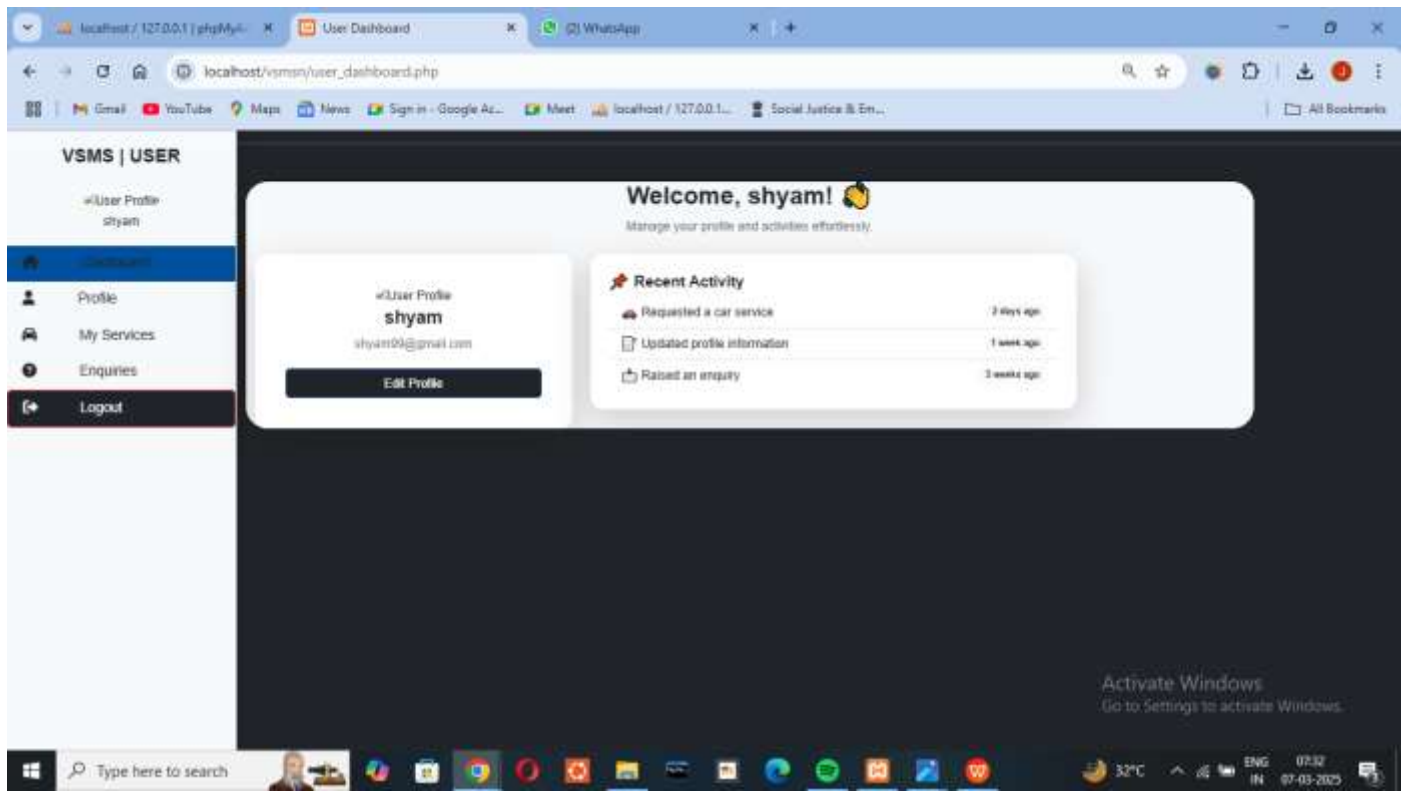

This is the **login page** for the " Vehicle Service Management System" web application. It allows users to log in by entering:

- Email Address
- Password

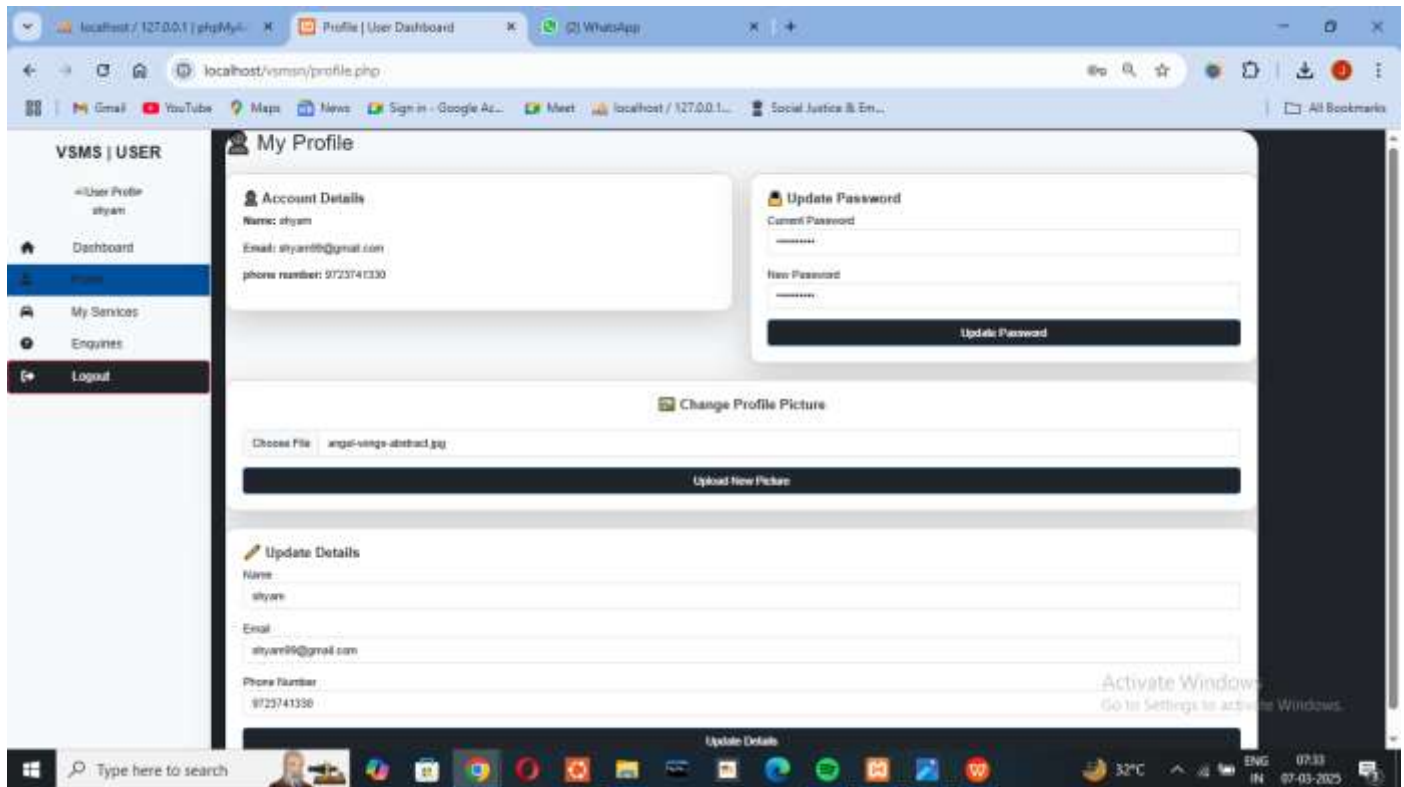

The page features a "**Login**" button for authentication. Additionally, there are options for "**Forgot Password?**" to reset credentials and a "**Register here**" link for new users to sign up.

Dashboard

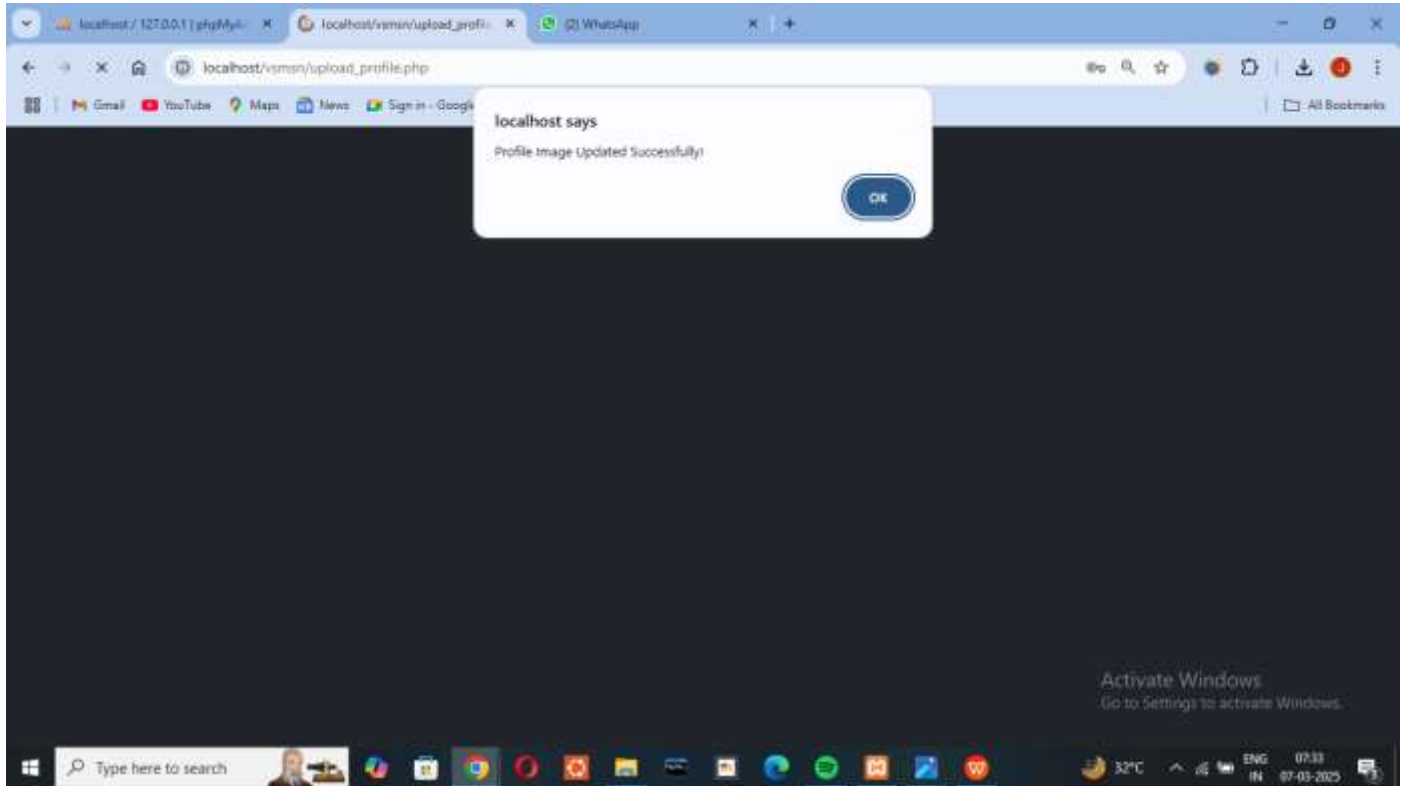

This screen will represent a user Dashboard and it also has an Edit Profile option which updates user login details.

Profile Management

This screen will update full details of user and also update password of users and upload user profile image

Image Upload Status

This prompt will show only if profile image in uploaded successfully in user side.

My Services

The screenshot displays a web browser window with the URL `localhost/vsms/service_requests.php`. The page is titled "Submit a Service Request" and features a sidebar on the left for user navigation. The sidebar includes a profile picture, the name "shyam", and links for Dashboard, Profile, Enquiries, and Logout. The main form contains the following fields:

- Service Category: A dropdown menu with "Select Category" as the placeholder.
- Vehicle Name: A text input field.
- Vehicle Model: A text input field.
- Vehicle Brand: A text input field.
- Vehicle Registration Number: A text input field.
- Service Date: A date picker showing "dd-mm-yyyy".
- Service Time: A time picker showing "HH:MM".
- Delivery Type: A dropdown menu with "Pickup" as the selected option.

Below the form, there is a checkbox labeled "I accept the terms and conditions" and a large blue "Submit Request" button. At the bottom of the page, there is a section titled "Your Service Requests". The Windows taskbar at the bottom shows the Start button, a search bar, and various application icons. The system tray on the right indicates a temperature of 32°C, the language is set to ENG IN, and the date is 07-03-2025.

This screen will be show my service section for fill information which is needed for serving user vehicles.

Vehicle Category

The screenshot displays a web browser window with the URL `localhost/vsmsn/service_requests.php`. The page is titled "Submit a Service Request". On the left, a sidebar for "VSMS | USER" shows a profile picture and navigation links: Dashboard, Profile, Enquiries, and Logout. The main form contains the following fields:

- Service Category:** A dropdown menu with "Select Category" as the placeholder. Below it, a blue bar highlights "Select Category", and a list shows "Bike", "Bulld", and "motor".
- Vehicle Brand:** A text input field.
- Vehicle Registration Number:** A text input field.
- Service Date:** A date picker showing "dd-mm-yyyy".
- Service Time:** A time picker showing "hh:mm".
- Delivery Type:** A dropdown menu with "Pickup" selected.
- Submit Request:** A large blue button.

Below the form, a section titled "Your Service Requests" is visible. The Windows taskbar at the bottom shows the date as 07-03-2025 and the time as 07:34.

This screen will represent service category which contains different types of vehicle for servicing.

Fill Details

The screenshot displays a web application interface for submitting a service request. The browser's address bar shows the URL `localhost/vsms/service_requests.php`. The page has a dark theme. On the left, a sidebar for 'VSMS | USER' shows a profile picture and navigation links: Dashboard, Profile, **Service Requests**, Enquiries, and Logout. The main content area is titled 'Submit a Service Request' and contains the following form fields:

- Service Category:** A text input field containing the value 'Bliss'.
- Vehicle Name:** A text input field containing the value 'Shine'.
- Vehicle Model:** A text input field containing the value 'new'.
- Vehicle Brand:** A text input field containing the value 'honda'.
- Vehicle Registration Number:** A text input field containing the value 'GJ-01-LF-1140'.
- Service Date:** A date picker field showing '09-03-2025'.
- Service Time:** A time picker field showing '15:30'.
- Delivery Type:** A dropdown menu with 'Drop-off' selected.

Below the form fields, there is a checkbox labeled 'I accept the terms and conditions' which is checked. At the bottom of the form is a large blue button labeled 'Submit Request'. A Windows watermark is visible in the bottom right corner of the browser window.

This is the inserted form of service request which contains many details related to the vehicle for servicing.

Request Submitted Successfully

The screenshot displays a web browser window with the URL `localhost/vsmsn/service_requests.php`. The page title is "Submit a Service Request". A light blue banner at the top of the form area states "Service request submitted successfully!". Below this, the form fields are as follows:

- Service Category:** A dropdown menu with "Select Category" as the placeholder text.
- Vehicle Name:** A text input field.
- Vehicle Model:** A text input field.
- Vehicle Brand:** A text input field.
- Vehicle Registration Number:** A text input field.
- Service Date:** A date picker showing "dd-mm-yyyy".
- Service Time:** A time picker showing "--:--".
- Delivery Type:** A dropdown menu with "Pickup" as the selected option.

At the bottom of the form, there is a checkbox labeled "I accept the terms and conditions". The left sidebar shows the user's profile "shyam" and navigation links for Dashboard, Profile, Service Requests (highlighted), Enquiries, and Logout. The Windows taskbar at the bottom shows the search bar, taskbar icons, system tray with temperature (32°C), language (ENG IN), and date/time (07:36 07-03-2023).

This screen will be displayed after sending successfully service request.

Show All Service Requests

The screenshot displays a web application interface for managing service requests. On the left is a sidebar with the user's profile and navigation links. The main area contains a form for submitting a new request and a table of existing requests.

VSMS | USER

shyam

- Dashboard

- ☐ I accept the terms and conditions
- Submit Request**

Your Service Requests

Category	Vehicle	Registration	Service Date	Time	Delivery Type	Action
2	dream yuga - old	GJ-01-LF-1140	2025-01-22	12:30:00	Drop-off	View Details Delete
2	Shine - new	GJ-01-LF-1140	2025-03-09	15:30:00	Drop-off	View Details Delete

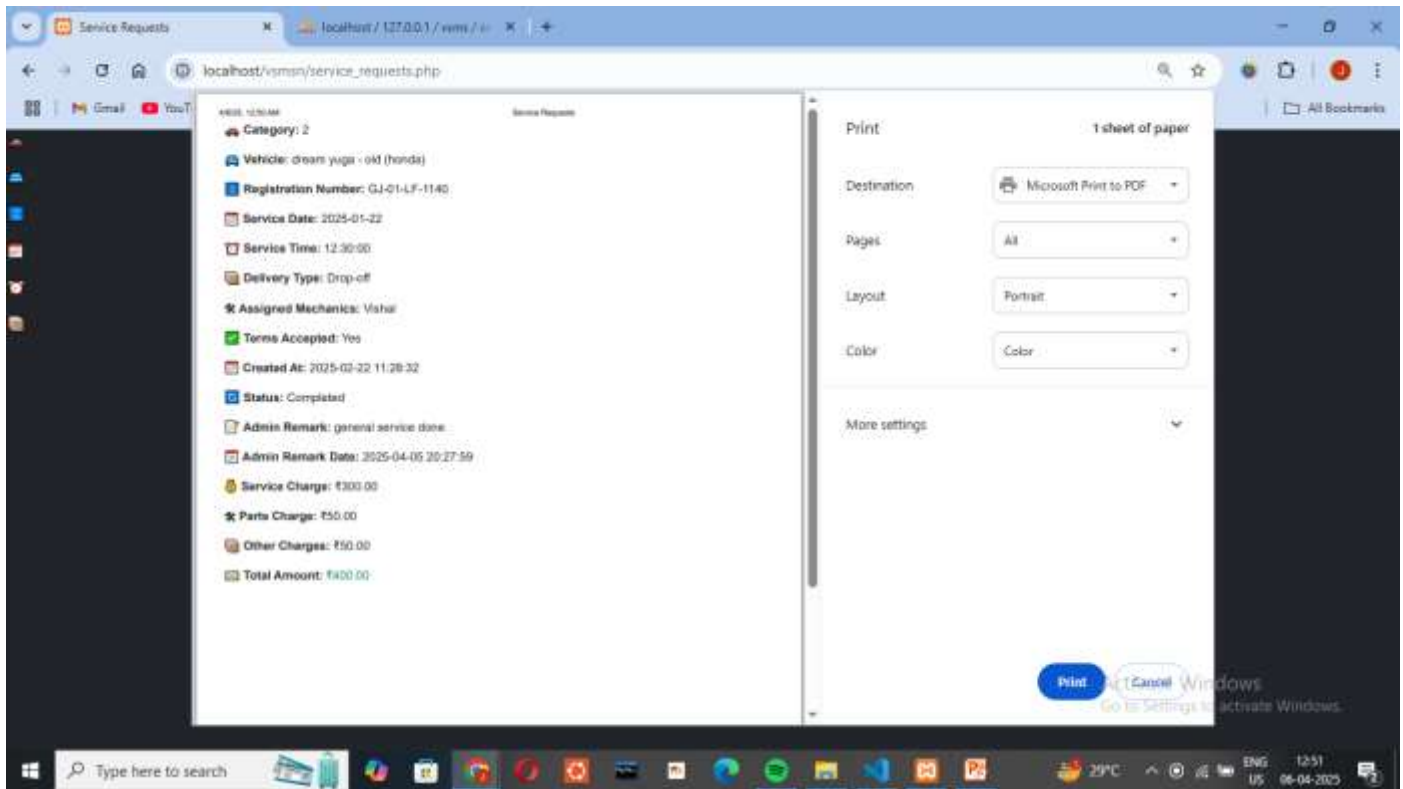

This screen shows all service requests after submitting service requests.

Service Request Details

This screen will displayed after clicking on view details which shows details and total bill amount of services.

Bill Printing

This screen will be displayed after clicking a print button which show the full bill printing page.

Delete Service

The screenshot shows a web browser window with the URL `localhost/vsms/service_requests.php`. A modal dialog box is open, asking for confirmation to delete a service request. The dialog has the text "localhost says" and "Are you sure you want to delete this service request?" with "OK" and "Cancel" buttons.

The background form is titled "VSMS | USER" and includes a sidebar with links: Dashboard, Profile, Service Requests (active), Enquiries, and Logout. The main form fields are:

- Vehicle Brand:
- Vehicle Registration Number:
- Service Date:
- Service Time:
- Delivery Type:
- ☐ I accept the terms and conditions
-

Below the form is a section titled "Your Service Requests" containing a table:

Category	Vehicle	Registration	Service Date	Time	Delivery Type	Action
2	dream yuga - old	GJ-01-LF-1140	2025-01-22	12:30:00	Drop-off	View Details Delete
2	Shine - new	GJ-01-LF-1140	2025-03-09	15:30:00	Drop-off	View Details Delete
2	Shine - new	GJ-01-LF-1140	2025-03-09	15:30:00	Drop-off	View Details Delete

On clicking the delete option on view screen that particular selected service will be deleted.

After Deleted Record

The screenshot shows a web application interface for 'VSMS | USER'. The left sidebar contains a user profile for 'shyam' and navigation links: Dashboard, Profile, **Service Requests**, Enquiries, and Logout. The main content area features a form for submitting a service request with fields for Vehicle Brand, Vehicle Registration Number, Service Date (dropdown), Service Time (dropdown), and Delivery Type (dropdown). Below the form is a checkbox for 'I accept the terms and conditions' and a blue 'Submit Request' button. Underneath the form is a section titled 'Your Service Requests' containing a table with two rows of data. The table has columns for Category, Vehicle, Registration, Service Date, Time, Delivery Type, and Action. The first row shows a 'dream yuga - old' vehicle with registration 'GJ-01-LF-1140' and service date '2025-01-22'. The second row shows a 'Shine - new' vehicle with registration 'GJ-01-LF-1140' and service date '2025-03-09'. Both rows have 'Drop-off' as the delivery type and include 'View Details' and 'Delete' buttons in the action column. The browser's address bar shows 'localhost/vsms/service_requests.php'.

Category	Vehicle	Registration	Service Date	Time	Delivery Type	Action
2	dream yuga - old	GJ-01-LF-1140	2025-01-22	12:30:00	Drop-off	View Details Delete
2	Shine - new	GJ-01-LF-1140	2025-03-09	15:30:00	Drop-off	View Details Delete

This screen will display the updates records after delete operation.

Enquiry Details

The screenshot displays a web browser window with the URL `localhost/vsms/enquiries.php`. The page features a sidebar on the left with the header 'VSMS | USER' and a user profile picture. The sidebar menu includes 'Dashboard', 'Profile', 'My Services', 'Inquiries' (highlighted), and 'Logout'. The main content area is divided into two sections. The top section, titled 'Submit an Inquiry', contains a form with a dropdown menu for 'Inquiry Type' (set to 'Service Request'), a text area for 'Description', and a 'Submit Inquiry' button. The bottom section, titled 'Your Inquiry History', shows a list of inquiries. The first entry is a 'Service Request' for 'general service' dated 'February 02, 2025, 11:29 am', with an 'Admin Response' of 'done'.

This screen will represent a user report means how many users are registered in this system

ADMIN PANEL SCREENSHOTS

Login Page

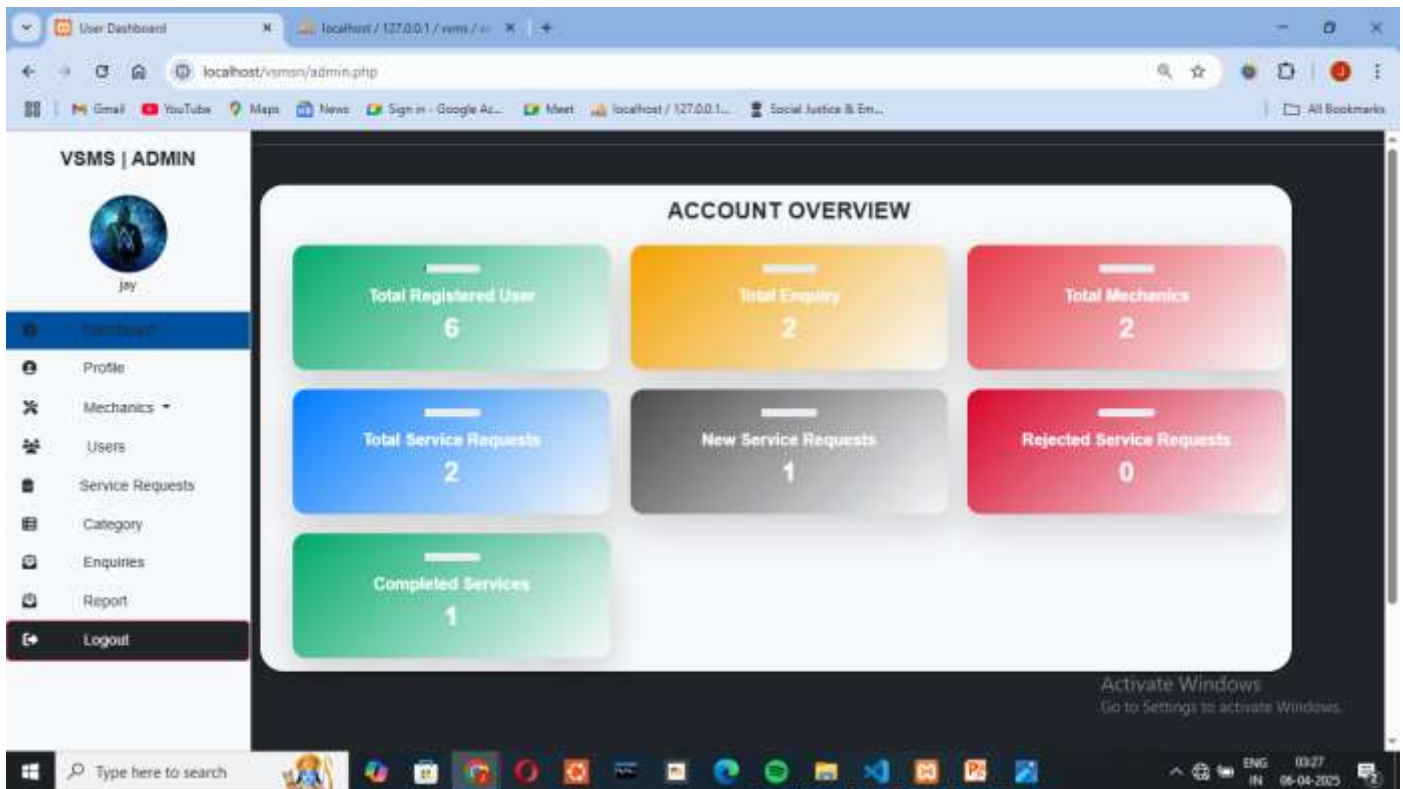

This is the **login page** for the " Vehicle Service Management System" web application. It allows Admin to log in by entering:

- Email Address
- Password

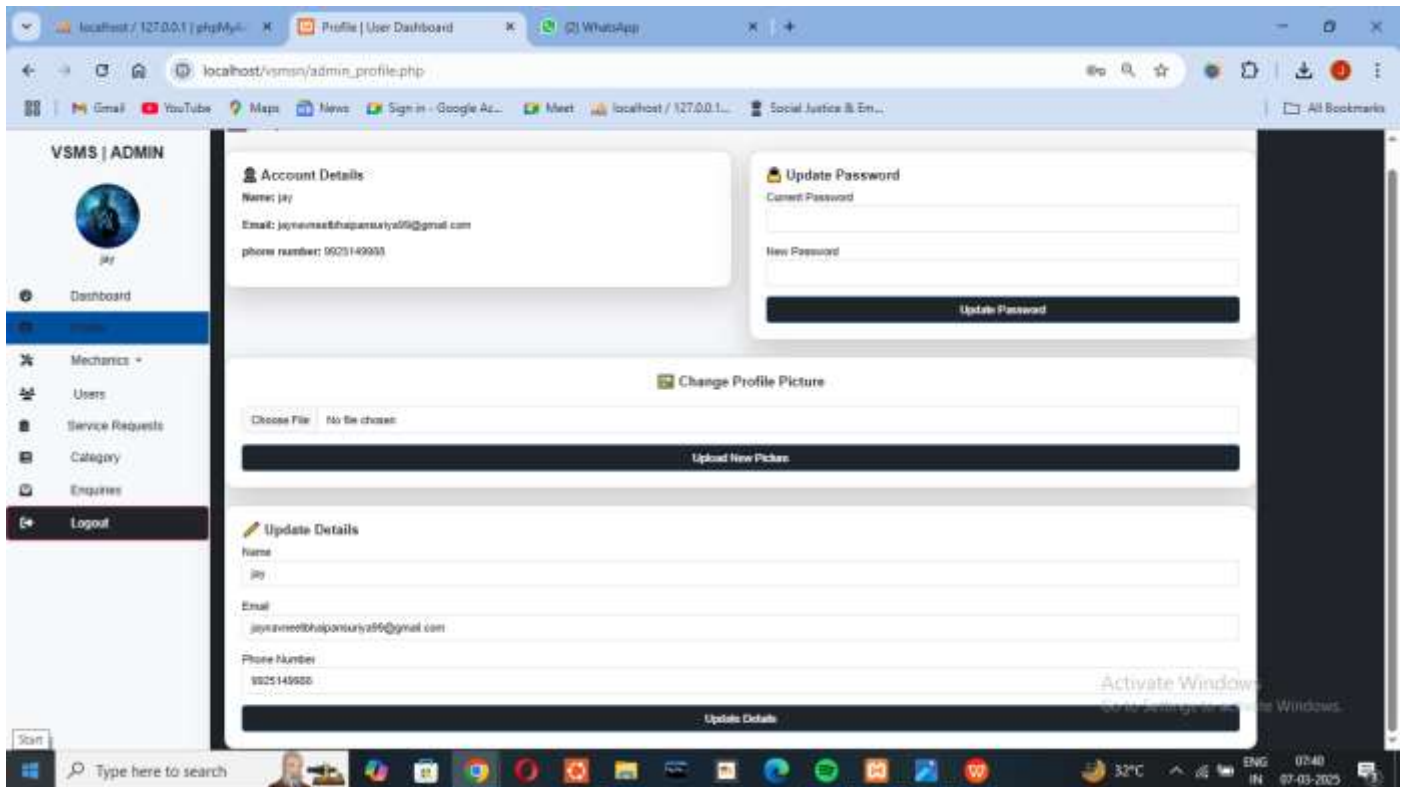

The page features a "**Login**" button for authentication. Additionally, there are options for "**Forgot Password?**" to reset credentials and a "**Register here**" link for new users to sign up.

Account Overview page

This screen will represent an admin Dashboard and it also has an account overview which contains every information.

Profile Details

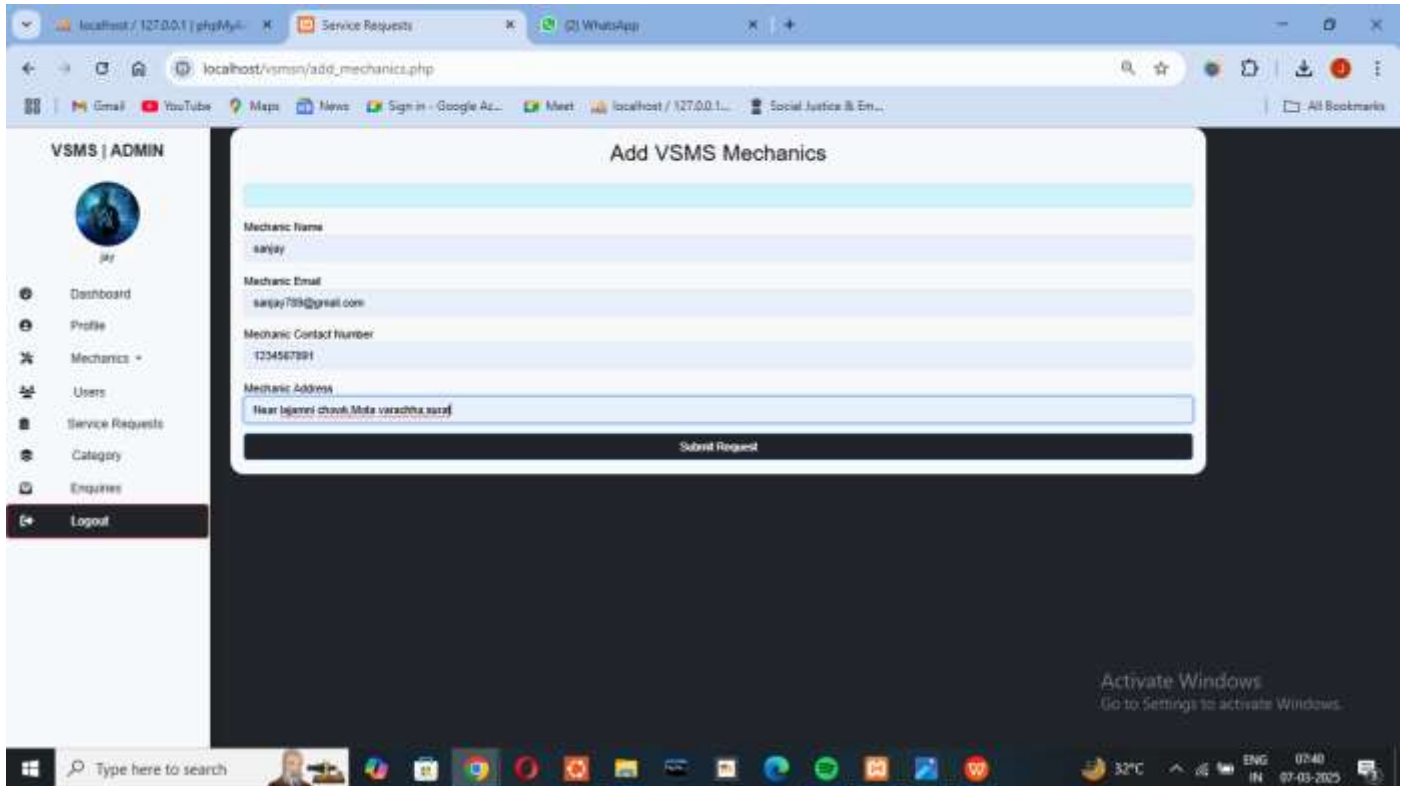

This screen will represent a user Dashboard and it also has an Edit Profile option which updates user login details.

Mechanics Details

The screenshot displays a web browser window with the URL `localhost/vsms/add_mechanics.php`. The page features a sidebar on the left with the header 'VSMS | ADMIN' and a user profile icon. The sidebar menu includes 'Dashboard', 'Profile', 'Mechanics' (expanded), 'Add Mechanics', 'Manage Mechanics', 'Category', 'Enquiries', and 'Logout'. The main content area is titled 'Add VSMS Mechanics' and contains a form with the following fields: 'Mechanic Name', 'Mechanic Email', 'Mechanic Contact Number', and 'Mechanic Address'. A 'Submit Request' button is located at the bottom of the form. The browser's address bar shows several open tabs, including 'Service Requests' and 'WhatsApp'. The Windows taskbar at the bottom indicates the system time as 07:40 on 07-03-2025.

This is the inserted form of mechanics details which contains name, email, contact-no and address.

Add Mechanics Details

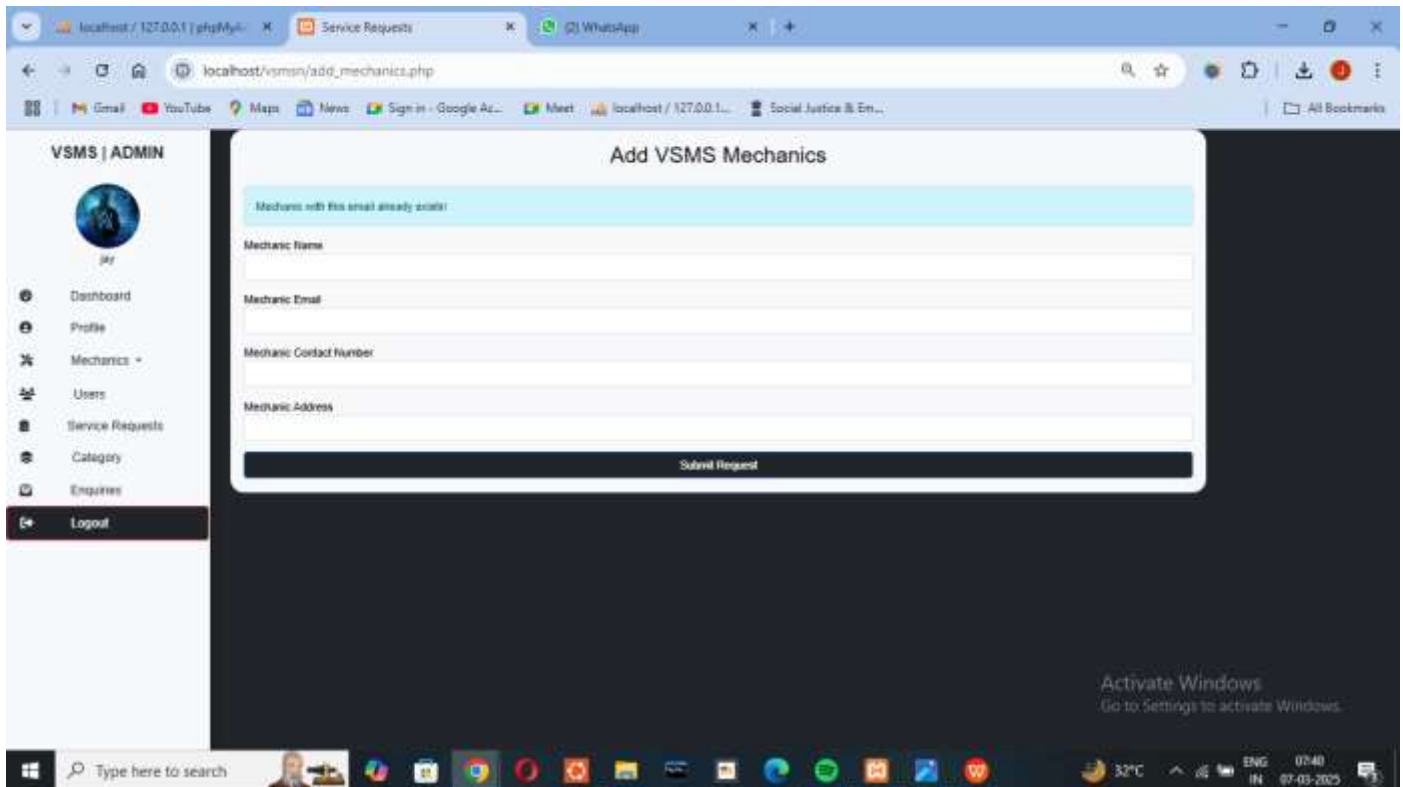

The screenshot displays a web browser window with the URL `localhost/vsms/add_mechanics.php`. The page features a sidebar menu on the left with the title "VSMS | ADMIN" and a user profile icon. The menu items are: Dashboard, Profile, Mechanics (selected), Users, Service Requests, Category, Enquiries, and Logout. The main content area is titled "Add VSMS Mechanics" and contains a form with the following fields:

- Mechanic Name:
- Mechanic Email:
- Mechanic Contact Number:
- Mechanic Address:

Below the address field is a "Submit Request" button. The browser's address bar shows several open tabs, including "Service Requests" and "WhatsApp". The Windows taskbar at the bottom indicates the system time as 07:40 on 07-03-2025.

This screen will display when adding new mechanics details which contains name, mail id, phone number and address.

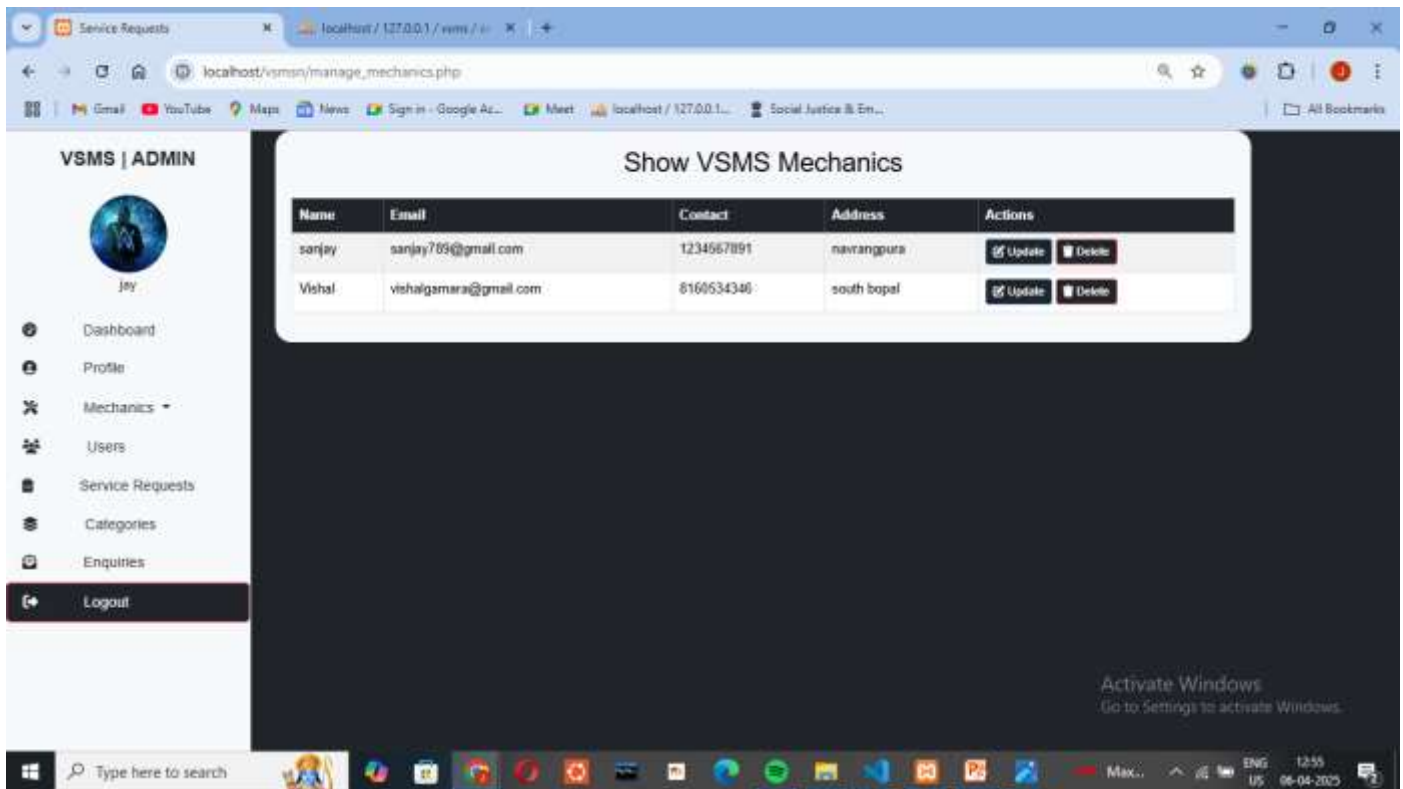

Notification of Mechanics Exists

The screenshot shows a web browser window with the URL `localhost/vsms/add_mechanics.php`. The page title is "Add VSMS Mechanics". On the left, there is a sidebar menu for "VSMS | ADMIN" with options: Dashboard, Profile, Mechanics (selected), Users, Service Requests, Category, Enquiries, and Logout. The main content area contains a form with the following fields: "Mechanic Name", "Mechanic Email", "Mechanic Contact Number", and "Mechanic Address". A message at the top of the form states: "Mechanics with this email already exists!". At the bottom of the form is a "Submit Request" button. The browser's taskbar at the bottom shows various application icons, a search bar, and system information including temperature (32°C), time (07:40), and date (07-03-2025).

This screen will displayed after successful insertion of mechanics details in add mechanics form.

List of Mechanics

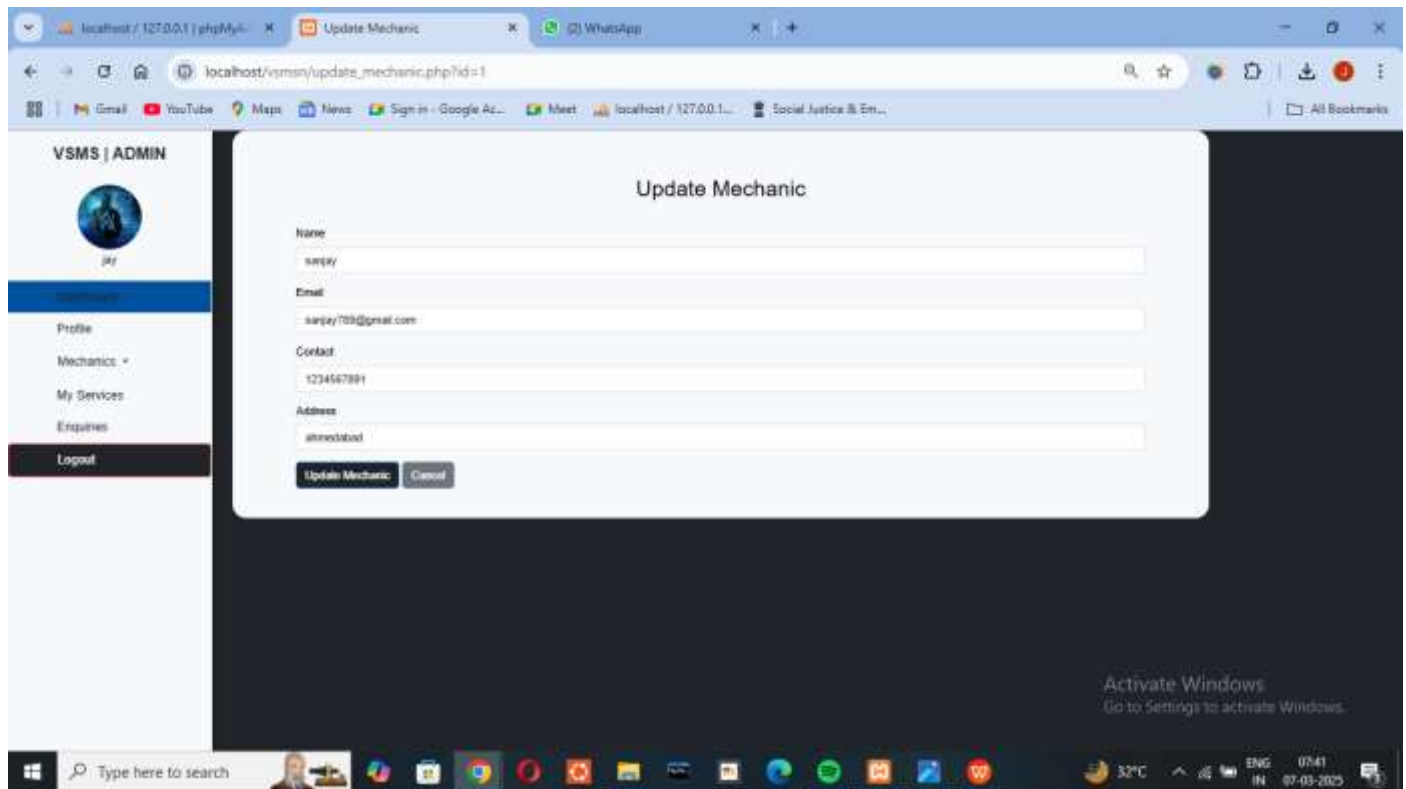

The screenshot shows a web browser window with the URL `localhost/vsms/manage_mechanics.php`. The page title is "Show VSMS Mechanics". On the left, there is a sidebar menu for "VSMS | ADMIN" with options: Dashboard, Profile, Mechanics (selected), Users, Service Requests, Categories, Enquiries, and Logout. The main content area displays a table with two rows of mechanics data. Each row has buttons for "Update" and "Delete".

Name	Email	Contact	Address	Actions
sanjay	sanjay789@gmail.com	1234567891	navrangpura	Update Delete
Vishal	vishalgamara@gmail.com	8160534346	south bopal	Update Delete

At the bottom right of the page, there is a message: "Activate Windows Go to Settings to activate Windows."

This screen will show list of mechanics which contains two buttons for update and delete mechanics details.

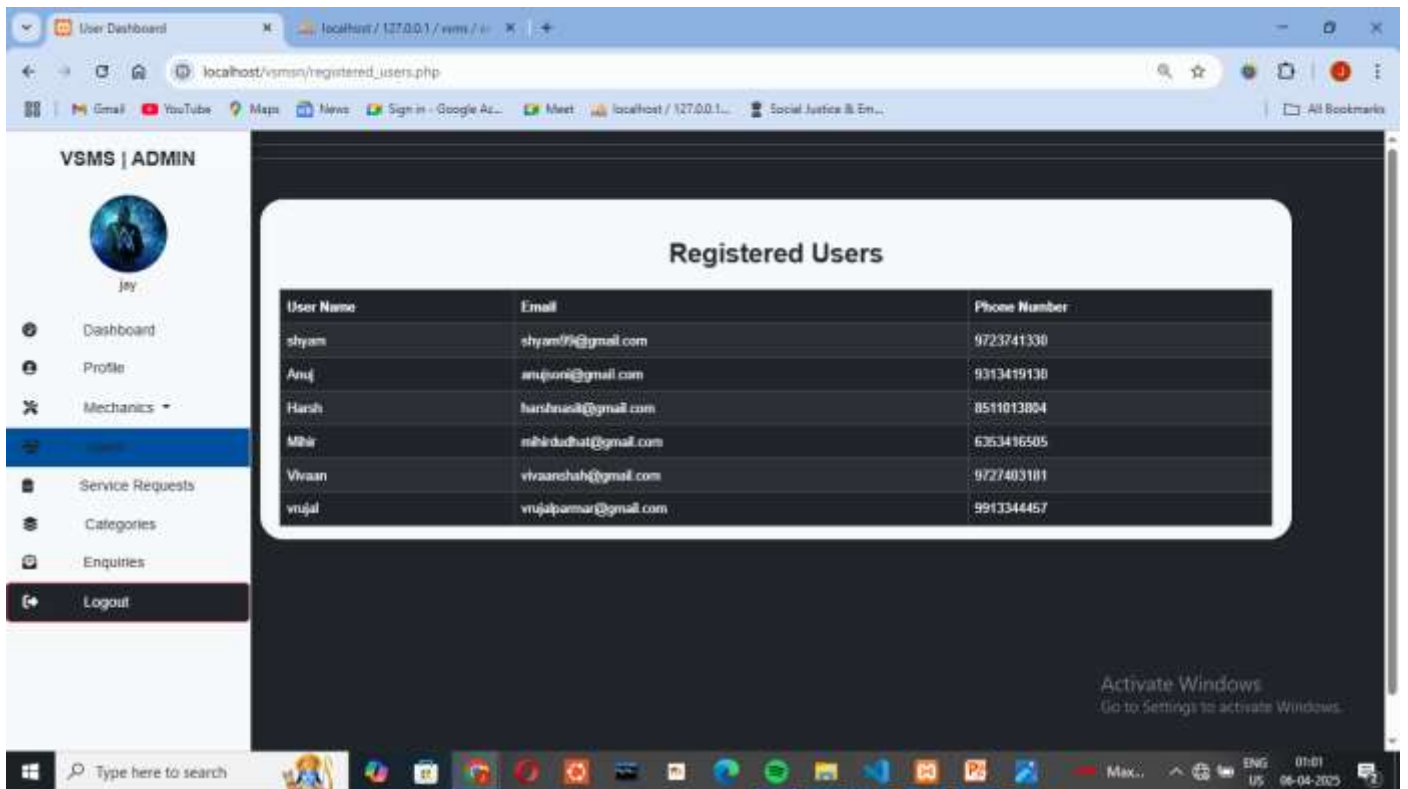

Update Mechanics Details

The screenshot displays a web browser window with the URL `localhost/vsms/update_mechanic.php?id=1`. The page features a sidebar on the left with the header "VSMS | ADMIN" and a user profile icon. The sidebar menu includes "Dashboard", "Profile", "Mechanics +", "My Services", "Enquiries", and "Logout". The main content area is titled "Update Mechanic" and contains a form with the following fields: "Name" (pre-filled with "sanjay"), "Email" (pre-filled with "sanjay789@gmail.com"), "Contact" (pre-filled with "1234567891"), and "Address" (pre-filled with "ahmedabad"). At the bottom of the form are two buttons: "Update Mechanic" and "Cancel". The browser's address bar shows several open tabs, including "localhost / 127.0.0.1 | phpMyA...", "Update Mechanic", and "WhatsApp". The Windows taskbar at the bottom shows the search bar, task view button, and various application icons, along with system information like temperature (32°C) and date (07-03-2023).

This screen will update full details of mechanics.

Registered Users List

The screenshot shows a web browser window with the address bar displaying 'localhost/vsms/registered_users.php'. The page has a dark theme. On the left is a sidebar for 'VSMS | ADMIN' with a user profile for 'Jey' and a menu with options: Dashboard, Profile, Mechanics, Users (highlighted), Service Requests, Categories, Enquiries, and Logout. The main content area is titled 'Registered Users' and contains a table with three columns: User Name, Email, and Phone Number. The table lists six users: shyam, Anuj, Harsh, Mihir, Vivaan, and vrujal. At the bottom right of the page, there is a 'Activate Windows' watermark.

User Name	Email	Phone Number
shyam	shyam99@gmail.com	9723741330
Anuj	anuj99@gmail.com	9313419138
Harsh	harsh99@gmail.com	8511013884
Mihir	mihir99@gmail.com	6363416505
Vivaan	vivaan99@gmail.com	9727403181
vrujal	vrujal99@gmail.com	9913344457

This screen will display total registered users.

Go to Settings to activate Windows.

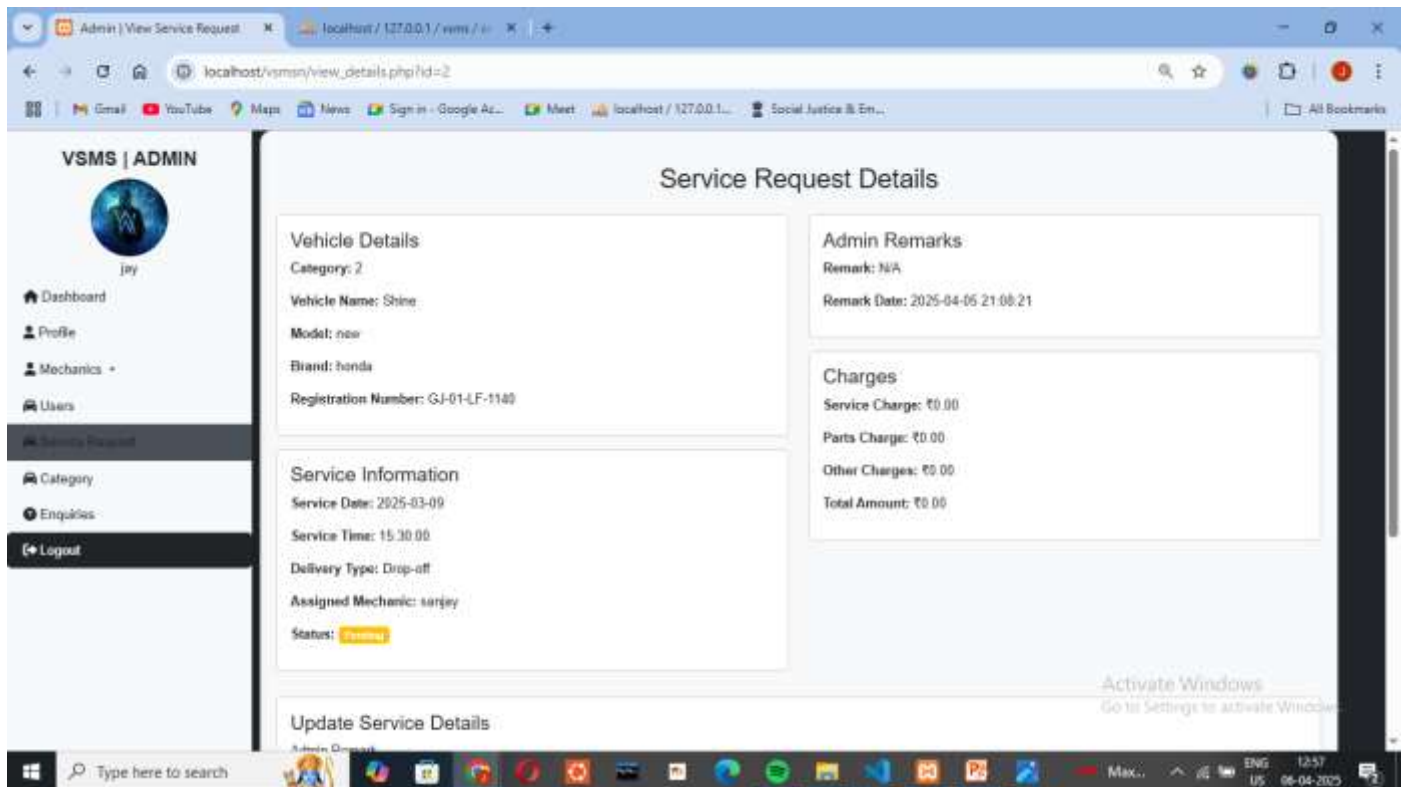

This screen will be displayed the status of service request in three types pending, completed and rejected.

Service is Completed

This screen will show all details of the vehicle in which it includes charges, admin remarks, vehicle details and service information.

Request Status Pending

This screen will update service details of vehicle about their charges.

Update Service Details

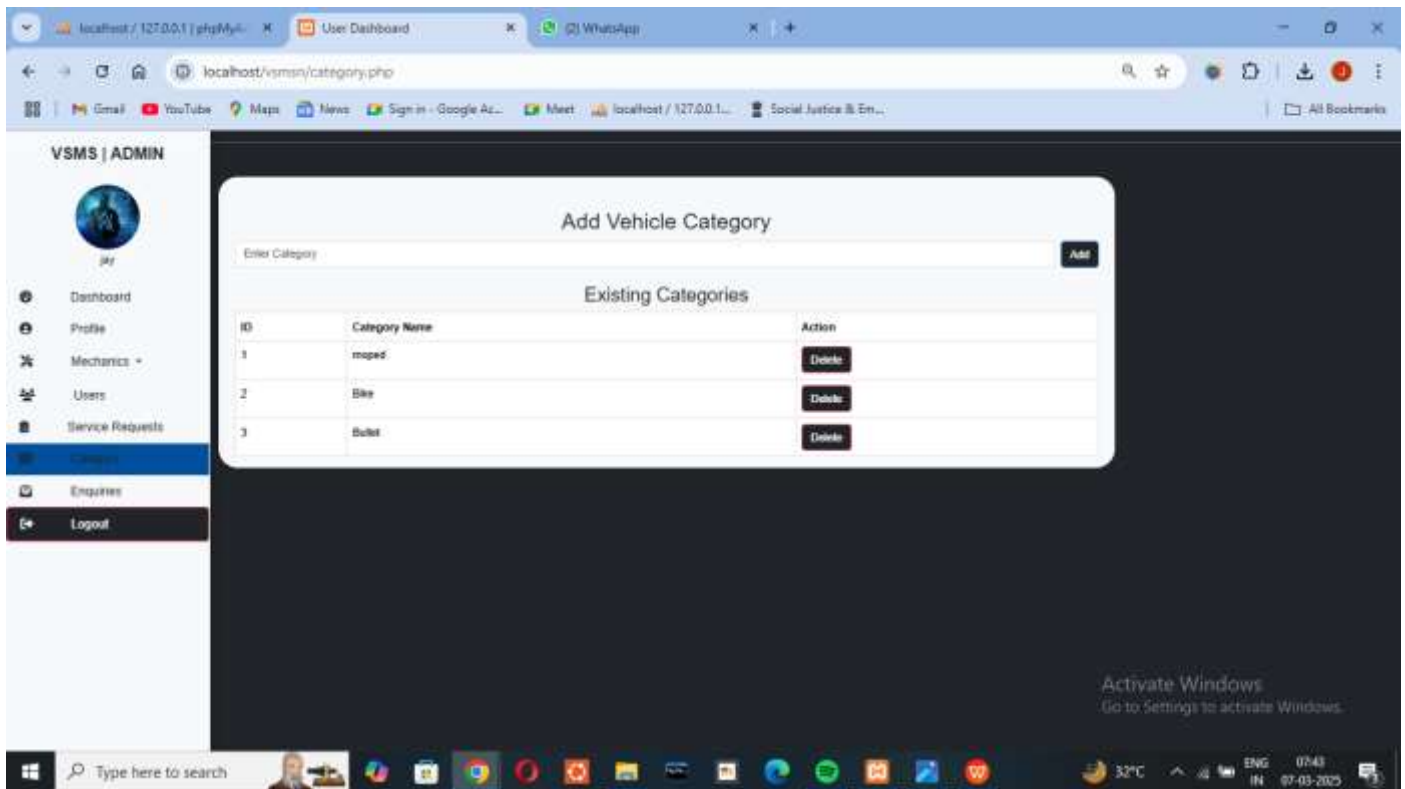

The screenshot displays the VSMS Admin interface in a web browser. The left sidebar contains navigation links: Dashboard, Profile, Mechanics, Users, Service Request (selected), Category, Enquiries, and Logout. The main content area is titled 'Update Service Details' and includes the following sections:

- Service Information:** Service Date: 2025-01-22, Service Time: 12:30:00, Delivery Type: Drop-off, Assigned Mechanic: Vishal, Status: Completed.
- Summary:** Other Charges: ₹50.00, Total Amount: ₹400.00.
- Update Service Details Form:**
 - Admin Remark:
 - Assign Mechanic:
 - Service Charge:
 - Parts Charge:
 - Other Charges:
- Buttons:** Update Details, Mark as Completed, Mark as Rejected.

The browser's address bar shows the URL `localhost/vsms/view_details.php?id=1`. The Windows taskbar at the bottom indicates the system time as 12:36 on 06-04-2025.

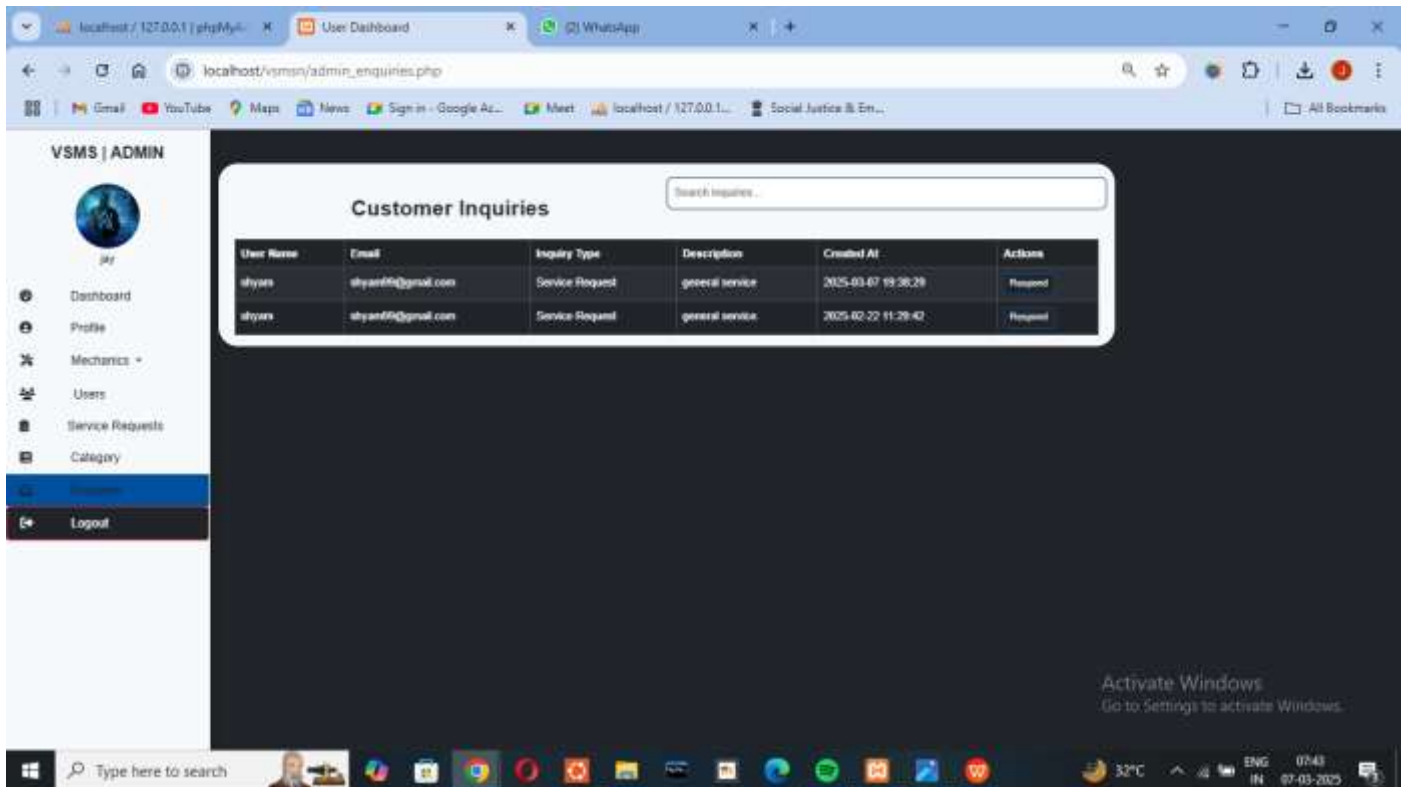

This part of the service request display admin remarks, assign mechanics, charges and status of services. It also updates related data of this fields.

Vehicle Categories

This screen will be displayed category form which used for adding new vehicle category and also provide delete button.

Customers Inquiries

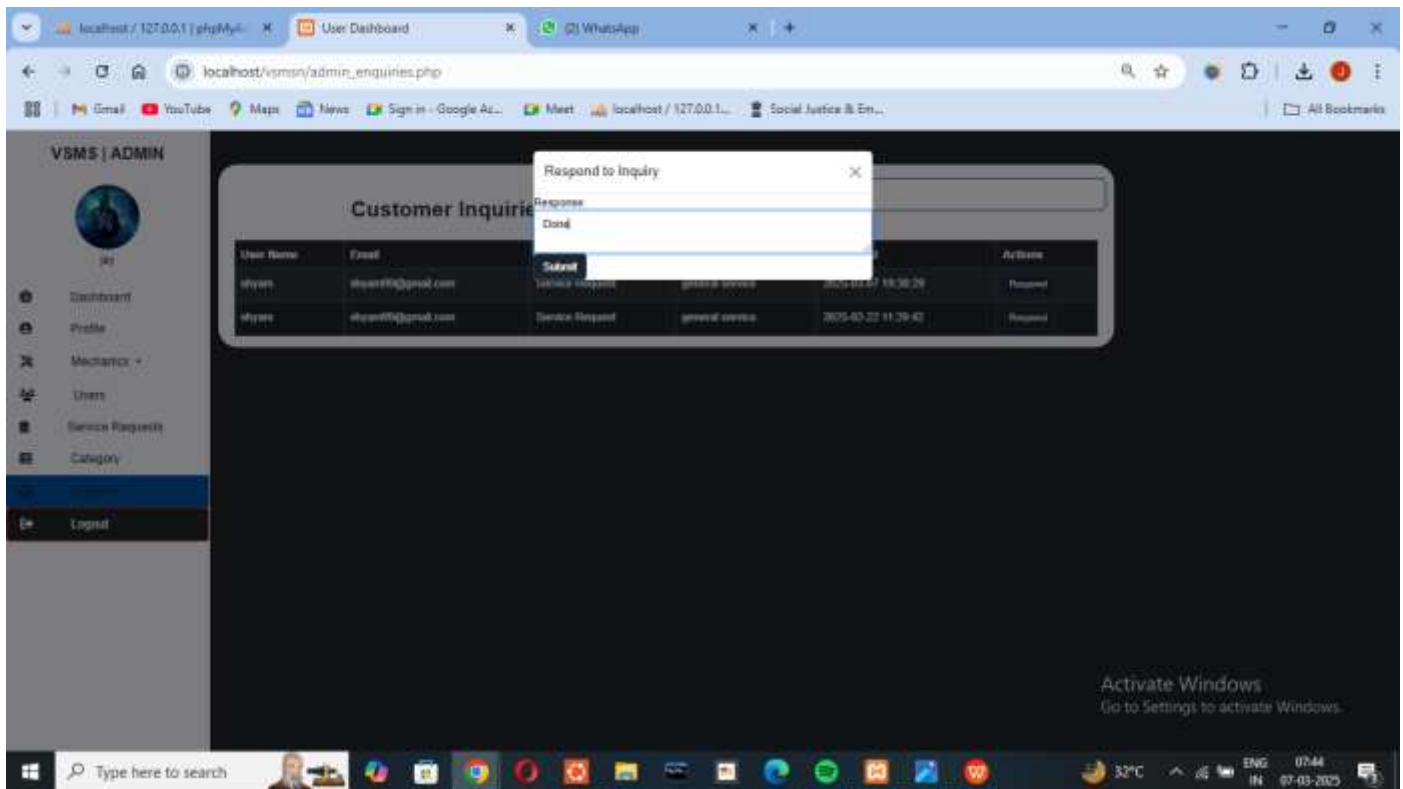

The screenshot displays a web application interface for managing customer inquiries. The browser's address bar shows the URL `localhost/vsms/admin_enquiries.php`. On the left, a sidebar menu for 'VSMS | ADMIN' includes options like Dashboard, Profile, Mechanics, Users, Service Requests, Category, Enquiries (highlighted), and Logout. The main content area, titled 'Customer Inquiries', features a search bar and a table with the following data:

User Name	Email	Inquiry Type	Description	Created At	Actions
shyves	shyanth@gmail.com	Service Request	general service	2025-03-07 19:38:29	Respond
shyves	shyanth@gmail.com	Service Request	general service	2025-02-22 11:29:40	Respond

The Windows taskbar at the bottom shows the system clock as 02:48 on 07-03-2025, with a temperature of 32°C and language set to ENG IN.

This screen shows customer Inquiries related to their vehicles and it also shows what services will doing on their vehicle.

Response to Customer Inquiry

This screen will prompt one respond field for admin to respond to user about their inquiry.

CONCLUSION

Thus we conclude that we enjoyed very much working on the project “**Vehicle Service Management System**” our internal guide **Prof. Garima Mishra** helped us a lot in improving the quality of our project.

As well as our external guide **Mr. Nirav Patel** helped us a lot in giving suggestions for better functioning of our work.

This is just the stepping stone for project development there is new paths to be discovered and there are new goals that are to be achieved.
